DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 12 is rejected under 35 U.S.C. 102(b) as being anticipated by Sun et al (6,450,894). Sun discloses a golf putter head comprising a central portion and two end portions. The central portion is made from a light weight material and the end portions or toe and heel portions are made from a heavy material. The densities of the toe and heel portions are greater than the density of the central portion (abstract). The central portion includes a threaded opening for receiving threaded rods/screws from the toe and heel portions for engagement. The shapes of the toe and heel portions are equivalent to the shape of the central portion.

Allowable Subject Matter

Claims 1-11 are allowed.
